HAY

MIMI SOFA

HIGHLIGHTS

- Relaxed and inviting sofa series with a soft, sculptural expression
- Upholstery designed for everyday use with a fully removable slipcover that facilitates maintenance, replacement, and renewal
- Characterful stitching and gently draped upholstery define the silhouette
- Available as 1-seater, 2-seater, 2.5-seater, 3-seater, and ottoman
- Optional rectangular cushions tailored to each sofa size, plus a square cushion for added comfort
- Suitable for a wide variety of private and public environments
- Qualified for contract use

MIMI SOFA

DESIGN BY PHILLIPE MALOUIN

Designed by Philippe Malouin, Mimi is an inviting sofa defined by the interplay between precise structure and a fluid silhouette. Its concise, sculpted contours are softened by gently draped upholstery, giving the design a relaxed yet refined expression. A generous central cushion provides comfort, while the tailored cover falls over the frame like a softly draped blanket, creating a balanced contrast between form and softness. Precise stitching along the upper edges emphasises the sofa's defined outline before gradually loosening into a skirted base, where the fabric flows more freely. This subtle transition also signals the removable cover, emphasising Mimi's adaptable and long-lasting design. Developed for flexible use, the cover can be removed and replaced, allowing the appearance to evolve over time. Available in multiple sizes and as an ottoman, Mimi comes in a curated selection of fabrics and can be complemented with matching square or rectangular cushions for added comfort.

Born in Canada in 1982, Philippe Malouin is a British-Canadian product designer and interior architect. His work balances functional clarity with a more sculptural approach, exploring material, form, and process to create pieces that are both practical and expressive. Today, he is based in London, where he continues to develop furniture, objects, and installations from his studio. For HAY, Philippe Malouin has designed the Mimi Sofa.

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC®-certified wood (FSC-C148805), and bio-based foam that helps lower our products’ overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
